L'ÉGLANTIER

2025 VERIFICATION OF THE SOLID'R LABEL

Forum Ethibel is a Belgian not-for-profit organisation and recognised as an expert in independent control and certification of products that meet societal, ecological and good governance standards. This audit and certification are carried out on behalf of Ressources.

RESSOURCES is the federation of social economy enterprises active in waste reduction through the recovery, reuse and valorisation of resources in a circular economy.

The Solid'R label is an ethical label for companies within the social economy sector active in the recycling, collection and sale of second-hand textiles and goods. The label was created to differentiate from private players in the reuse and recycling market. RESSOURCES launched the Solid'R label for organisations that voluntarily respect certain ethical and solidarity principles and are audited annually. In 2018, Solid'R has been launched on European level to promote these solidarity principles and to apply the social economic criteria. In 2024, Solid'R reviewed their criteria to make them more inclusive for the European context. Find the criteria on the last page of this report.

CONCLUSION

All requested documents were delivered, and questions were answered in full. Forum Ethibel declares that, for the year 2024, the activities of L'Églantier are partially compliant with SOLID'R Ethical Charter that is based on the European criteria of social economy.

VERIFICATION

L'Églantier's mission is to accommodate, protect and empower women and children who -in most cases- flee domestic violence. The organisation consists of three pillars: 'Maison d'accueil' is the provision of shelter for women - with or without children. The second pillar is 'Antenne', an ambulatory care provider. The third pillar, Fol'Fouille, includes the social economy activities.

General remarks:

Activities: The organisation aspires an all-around approach in having an impactful influence on the women and children accommodated. Clothes received are primarily used for material support to the women and children, sheltered at L'Églantier. The remaining goods are sold, and the profit is used for the daily operation. The organisation's annual objectives are focused on ensuring the continuation of its activities and are closely linked to the requirements of the subsidiary bodies.

Employees: With regard to training, l'Églantier has a rule stipulating that each worker is entitled to the equivalent of their working time in a week, in hours of training, per year. This rule has not been respected over the last four years which is conflicting with criteria 6. There has been an improvement in the number of training hours during this period, but there has been a lack of consistency in how these hours have been distributed among employees and adapted to their personal needs. An adequate training plan is planned for the period 2026-2028 and will be monitored by the auditor. L'Églantier does not have a formal non-discrimination policy for its members. This is a point of attention for criteria 5.

Governance: Workers are invited to become active members of the General Assembly, but the proposal is meeting with little success. However, they can attend as guests and many workers attended the 2024 GA as such. They are also kept informed of decisions concerning L'Églantier during regular meetings and have the opportunity to raise issues to management.

Documentation and additional information were transparently shared with the auditor.

NOTIFICATION

SOCIETAL VALUE

The principles and criteria queried and checked during the audit are set out by RESSOURCES. The importance of this audit is to make the public aware of the ethical, social and ecological principles that the organisation in question strives entirely voluntarily.

Based on the audit and the resulting certificate, RESSOURCES determines whether the Solid'R label could be assigned to the concerning organisation (or not).

PROCEDURE

Organisations that want to receive the Solid'R label for the first time are subject to an on-site audit. In the following two years, a remote audit is carried out.

After that, an on-site audit will be organised every three years. For the smallest organisations this is replaced by an online audit. This is important to discuss whether new developments or changes have taken place in terms of vision, strategy or long-term objectives.

By alternating on site audits and remote audits, a balance is respected between maintaining in-depth views about the organisations and pursuing cost-efficiency.

Commitments and underlying indicators (*):

Commitment	Criteria
Commitment 1: Social purpose	<p>The social goals are defined and the way of meeting them is evaluated at least once a year (activity or management report)</p> <p>Limitation of the return on Capital to a dividend must not exceed SE national limitation.
