LES PETITS RIENS - SPULLENHULP

2025 VERIFICATION OF THE SOLID'R LABEL

Forum Ethibel is a Belgian not-for-profit organisation and recognised as an expert in independent control and certification of products that meet societal, ecological and good governance standards. This audit and certification are carried out on behalf of Ressources.

RESSOURCES is the federation of social economy enterprises active in waste reduction through the recovery, reuse and valorisation of resources in a circular economy.

The Solid'R label is an ethical label for companies within the social economy sector active in the recycling, collection and sale of second-hand textiles and goods. The label was created to differentiate from private players in the reuse and recycling market. RESSOURCES launched the Solid'R label for organisations that voluntarily respect certain ethical and solidarity principles and are audited annually. In 2018, Solid'R has been launched on European level to promote these solidarity principles and to apply the social economic criteria. In 2024, Solid'R reviewed their criteria to make them more inclusive for the European context. Find the criteria on the last page of this report.

CONCLUSION

All requested documents were delivered, and questions were answered in full. Forum Ethibel declares that, for the year 2024, the activities of Les Petits Riens – Spullenhulp are compliant with remarks with SOLID'R Ethical Charter that is based on the European criteria of social economy.

VERIFICATION

Les Petits Riens – Spullenhulp fights poverty and social exclusion by accompanying homeless people as well as other disadvantaged people to regain a place in society. The organisation is mainly active in Brussels (and to a lesser extent in Wallonia) and believes that accommodation and work are the two cornerstones to tackle poverty and related challenges structurally and efficiently.

General remarks:

Activities: LPR confronts social injustice in society by helping people to improve their capability to enter the job market. Their social impact, as well as that of other non-profit organisations linked to Les Petits Riens, is monitored using comprehensive KPIs that are available in their annual report.

Employees: LPR has a clear hiring policy which is transparent for employees. Employees have the opportunity to undergo training in their own interest and that of the organisation as part of an overall training plan.

Governance: Since an amendment to the statutes end 2022, employees are no longer invited to become members or assist to the GA. Social dialogue takes place through union representatives sitting in the work council, and there are no direct relations between workers and management. This is an attention point for criteria 6 - Democratic control. The concertation processes in place broke down in 2024 during a series of layoffs, followed by a strike and a two-month interruption of the work council meetings. The organisation has since attempted to reestablish dialogue in 2025. The state of

social dialogue will therefore be the subject of close attention by the auditor during the on-site audit to be carried out in 2026.

Documentation and additional information were transparently shared with the auditor.

NOTIFICATION

SOCIETAL VALUE

The principles and criteria queried and checked during the audit are set out by RESSOURCES. The importance of this audit is to make the public aware of the ethical, social and ecological principles that the organisation in question strives entirely voluntarily.

Based on the audit and the resulting certificate, RESSOURCES determines whether the Solid'R label could be assigned to the concerning organisation (or not).

PROCEDURE

Organisations that want to receive the Solid'R label for the first time are subject to an on-site audit. In the following two years, a remote audit is carried out.

After that, an on-site audit will be organised every three years. For the smallest organisations this is replaced by an online audit. This is important to discuss whether new developments or changes have taken place in terms of vision, strategy or long-term objectives.

By alternating on site audits and remote audits, a balance is respected between maintaining in-depth views about the organisations and pursuing cost-efficiency.
