

CERTIFICATE

OXFAM SOLIDARITÉ

2025 VERIFICATION OF THE SOLID'R LABEL

Forum Ethibel is a Belgian not-for-profit organisation and recognised as an expert in independent control and certification of products that meet societal, ecological and good governance standards. This audit and certification are carried out on behalf of Ressources.

RESSOURCES is the federation of social economy enterprises active in waste reduction through the recovery, reuse and valorisation of resources in a circular economy.

The Solid'R label is an ethical label for companies within the social economy sector active in the recycling, collection and sale of second-hand textiles and goods. The label was created to differentiate from private players in the reuse and recycling market. RESSOURCES launched the Solid'R label for organisations that voluntarily respect certain ethical and solidarity principles and are audited annually. In 2018, Solid'R has been launched on European level to promote these solidarity principles and to apply the social economic criteria. In 2024, Solid'R reviewed their criteria to make them more inclusive for the European context. Find the criteria on the last page of this report.

CONCLUSION

All requested documents were delivered, and questions were answered in full. Forum Ethibel declares that, for the year 2024, the activities of Oxfam Solidarité are compliant with SOLID'R Ethical Charter that is based on the European criteria of social economy.

General remarks:

Activities: Oxfam's KPIs relate to integration contracts, the number of volunteers and their commitment, trainings, the quantities collected and recycled, as well as their contribution to the financing of other Oxfam activities. The objectives communicated for the coming years are essentially qualitative; setting annual targets in terms of KPIs represents an area for improvement for an organisation of this size.

Employees: Oxfam Solidarité actively hires disadvantaged workers while also relying on a robust network of volunteers, some of whom may face societal barriers or challenges related to employment. Oxfam has implemented a formal training policy, giving each worker access to five days of training. In 2024, it also developed social and professional support for its workers on integration contracts, which is a positive step that the auditor encourages to be developed further.

Governance: Oxfam only allows volunteers to be part of decision-making bodies, based on its principle of citizen movement. Employees have an operational and support role. They can therefore attend General Assemblies but do not have voting rights. They are mainly heard through union representation on the works council and during

employee council meetings, where they are informed of Oxfam's policy and heard on issues relating to employees.

Documentation and additional information were transparently shared with the auditor.

NOTIFICATION

SOCIETAL VALUE

The principles and criteria queried and checked during the audit are set out by RESSOURCES. The importance of this audit is to make the public aware of the ethical, social and ecological principles that the organisation in question strives entirely voluntarily.

Based on the audit and the resulting certificate, RESSOURCES determines whether the Solid'R label could be assigned to the concerning organisation (or not).

PROCEDURE

Organisations that want to receive the Solid'R label for the first time are subject to an on-site audit. In the following two years, a remote audit is carried out.

After that, an on-site audit will be organised every three years. For the smallest organisations this is replaced by an online audit. This is important to discuss whether new developments or changes have taken place in terms of vision, strategy or long-term objectives.

By alternating on site audits and remote audits, a balance is respected between maintaining in-depth views about the organisations and pursuing cost-efficiency.

Commitments and underlying indicators (*):

Commitment	Criteria
Commitment 1: Social purpose	<p>The social goals are defined and the way of meeting them is evaluated at least once a year (activity or management report)</p> <p>Limitation of the return on Capital to a dividend must not exceed SE national limitation.
